## PURPOSE

To establish a comprehensive standard operating procedure for qualifying global technology infrastructure, ensuring compliance with general safety regulations and promoting efficient IT operations. This SOP aims to provide clear guidelines for IT personnel to follow, minimizing risks and optimizing infrastructure performance. The qualification process will be conducted in a controlled environment, with emphasis on safety and quality checkpoints. The overall process is estimated to take approximately 120 minutes to complete.

---

## SCOPE

The Global Technology Infrastructure Qualification SOP applies to all IT infrastructure and systems worldwide, ensuring compliance with general safety standards and guidelines.

---

## RESPONSIBILITIES

The successful execution of the Global Technology Infrastructure Qualification SOP relies on the collaboration of various roles within the Information Technology department. Effective communication and adherence to defined responsibilities are crucial for ensuring the infrastructure meets the required standards and operates safely.
